EXPERIENCE

Software Developer Intern

Suyog Electricals Ltd

January 2024 - April 2024, Vadodara, Gujarat

- Developed and maintained web applications during my internship at Suyog Electricals Ltd.
- Utilized PHP, MS SQL, HTML, CSS, JavaScript, Bootstrap, Query, and other technologies to create dynamic and Responsive web solutions.
- Gained hands-on experience in database management, API integration, and troubleshooting to enhance application Functionality and performance.

Web developer intern

Mamo Technolabs

September 2023 - December 2023, Vadodara, Gujarat

- Developed front-end applications using HTML, CSS, and JavaScript.
- Designed intuitive UI/UX interfaces with Figma, enhancing user experience.
- Collaborated in an Agile environment, using Git for version control.
- Integrated RESTful APIs to improve functionality.

Summer internship

Edunet foundation

July 2023 - August 2023, Vadodara, Gujarat

- Gained hands-on experience in securing IoT ecosystems by using Encryption, Authentication, and intrusion detection to Safeguard connected devices and data.
- Developed a strong command of data visualization tools Such as Power BI and SAP Analytics Cloud, showcasing the ability to transform raw data into actionable insights.
- Successfully implemented IoT solutions using Raspberry Pi and various sensors, showcasing practical knowledge of hardware components and software integration.

PROJECTS

Stock Ledger Report

Personal Project • [github.com/Prit20/Stock-Ledger-Report](#) • April 2024 - May 2024

- Developed a web-based stock ledger report system using PHP, MSSQL, HTML, CSS, JavaScript, and jQuery.
- This system allows users to track their investment activities by adding buy and sell transactions for individual stocks.
- Generating reports on total quantity of shares bought and sold. And overall profit or loss on their investments.

Restaurant Management System

Suyog Electricals Ltd • [github.com/Prit20/Restaurant-Management-System](#) • January 2024 - March 2024

- Developed a restaurant management system using PHP.
- Implemented advanced features such as order management, inventory tracking, customer relationship management, Staff management, Table booking in advance and secure Payment.
- Designed and structured the database using Ms SQL, ensuring efficient data storage and retrieval.
- Utilized PHP for backend logic and server-side scripting, delivering a seamless user experience.

Advance shopping cart

Smart India Hackathon • June 2022 - August 2022

- Engineered an advanced shopping cart application to manage entire shopping, billing, product tracking, and online payments efficiently.
- Implemented a cutting-edge system to reduce queue times at cash counters, enhancing customer experience significantly.
- Designed an in-cart billing process allowing customers to complete transactions seamlessly during their shopping experience in superstores.
